DETAILED ACTION

Reason For Allowance

1. Claims 1-8 are allowed.
2. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art taken alone or in combination fails to teach or fairly suggest all the claimed features as presented in independent claim 1, which include (claim 1) a primary spatial light modulator for modulating a first light source, an optical means for combining the modulated light with a second light source, and an auxiliary spatial light modulator for modulating the combined light from the optical means.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Taneda (2005/0008374), Lerner et al. (20070076172), Tian et al. (2009/0201564), Fujii et al. (2003/0081301), Flint (2002/0060753), Ward (2009/0225234), Yamauchi et al. (2008/0247022) and Kettle et al. (2006/0164443) discloses a first optical modulator and a second

optical modulator to modulating light from a first light source and second light source. However, they lack teaching of a combiner for combining the modulated light with a non-modulated light; wherein the second spatial light modulator for modulating the combined light from the combiner.
